Re: Review of the Response to Comments
on the Second Revised Work Plan for
the Third Round of CAP18 ME
Injections
Michigan Plaza
3801-3823 West Michigan Street
Indianapolis, IN
VRP # 6061202

Dear Mr. Cappel:

This office has completed review of the "Response to IDEM's Review of Second Revised Work Plan for the Third Round of CAP 18 Injections" submittal. The document was reviewed to determine consistency with the Indiana Department of Environmental Management (IDEM)'s Voluntary Remediation Program (VRP) guidelines. Based on the additional information contained in the response document, the site may proceed with implementation of a third round of CAP18 injections. Please note that the approval of this injection event is not an approval of CAP18 as a site-wide remedy. A full site-wide remedy will need to be included in the forthcoming Remediation Work Plan (RWP). The RWP should also include full contingency plans for protecting the drinking water well as well as long term remedies for the vapor contamination. If you have any questions, please contact me at (317) 234-2513, (800) 451-6027, or at canderson@idem.in.gov.

Sincerely,

Carmen Anderson, Senior Project Manager
Remediation Services Branch
Office of Land Quality
